TDD: REMOVAL SUPPORT TEAM 3 (EP-S2-14-01/0006)/0082 is sent as a courtesy copy to you in EAS.

You may access the document at <https://eas.epa.gov/> Project Title: REMOVAL SUPPORT TEAM 3

Description: The Niagara Town Garage Site (Site) is located at 7105 Lockport Road in the Town of Niagara, Niagara County, New York. The active facility houses a Highway Garage Building, approximately 21,675 ft² in size, primarily used for storing and maintaining large equipment and vehicles for highway, police, water, and sewer authorities. A dirt fenced-in lot, measuring approximately 1 acre, is located at the rear of the property behind the Highway Garage Building. This area is used for the storage of materials including derelict vehicles, active vehicles, stone, excess pipe, and general mechanical debris. To the east of the garage is a storage silo for road salt and a yard that holds sand, dirt and stone for highway purposes. To the west is the Niagara Town Hall and water tower, beyond which is a residential property. The Site is bounded to the south by an active railroad line, beyond which a public playground and residential properties are located. Surface drainage

is to the south where it runs alongside the elevated railroad track.

The Site is bisected by two parcels, both owned by the City of Niagara. Parcel 131.19-1-17 is the western parcel and most associated with the 7105 Lockport Road Niagara Town Garage Site. This parcel also houses the Niagara Town Hall and the water tower. A majority of the contaminated material was found on this parcel. The western parcel, 131.20-1-1, holds the silo, dirt storage area and part of the garage structure that is used by the police department and water and sewer authorities.

In accordance with the Assessment Activities Section in the PWS, RST-3 shall provide removal site assessment support and perform the following activities: Provide one personnel with Level D capability to support this removal assessment. Prior to mobilization, contact the OSC to discuss site logistics and to determine if a meeting is required to discuss task assignments. Background information will be provided by the Task Monitor at the time of the Vendor: WESTON SOLUTIONS, INC.
